The Teaching Presses for Pesantren by TGH Bagu

TGH Bagu’s Islamic Knowledge curriculum has 5 learning methods for the Qamarul Huda School Foundation. First is the exemplary model (Uswh Hasanah) method. Uswhah hasanah method has taught by the Prophet Muhammad. This method is the reference for TGH Bagu in the Education activities of the Qomarul Huda School foundation. TGH Bagu respects and exemplifies the Teachers with the wise attitude that is always present in Tuan Guru. The exemplary model method has become the attitude and personality of TGH Bagu.

The thought of TGH Bagu talks the recitation method on sat cross-legged more blessed than sitting on a chair. He presupposes an example of eating with a plate of sitting chairs with cross-legged meals. He explains that cross-legged eating tends to increase and enthusiasm for full satisfied. From this metaphor, assuming that learning is cross-legged will always be eager to gain knowledge.

The exemplary model method becomes the main learning method of the thoughts of TGH Bagu. He takes the moral concept of the Prophet. This is reinforced by the quote in kitab al-Barzanji which reads

وَلَا يَهَابُ الْمُلْكُ وَيُغْضِبَ بِلَّهِ تَعَالَى وَيُرْضِي لِرِضْاَهُ

“The Prophet never feels afraid of the kings power. The attitude of the prophet when angry is solely because of Allah, and the Prophet willingness is only because of Allah.”

The principle is angry because God and rebuke because God is a principle that is held firmly by the thoughts of TGH Bagu. TGH Bagu other exemplary model method is silent in act.

The other method of learning the example model of TGH Bagu is in the form of advice. TGH Bagu tells the story of Hasan Husain at the time of the dispute and the two did not greet each other for 3 days. Husain sends letter for Hasan. The letter mentions the reward of the first person to greet in an enthusiasm in peace of conflict. The attitude of exemplary mutual advice is the story of kindness and patience. This short story shows the greatness of the soul to receive mutual advice.  

The second learning method is habituation. This method is an important part for Santri. With the concept of traditional pesantren, Santri learns free independent habits. This experience teaches the habits of santri to study at school and pesantren. This is a form of getting used to in carrying out the mandate of parents to study at pesantren. Even the slightest good habit will form a good personality. TGH Bagu provides the basic principles of good habits.

The habituation method TGH Bagu needs a long time. As long as Santri in the lodge are educated and forged with good habits, such as recitation, do’a zikir, helping each other, doing good and mutual assistant. Tuan Guru puts the principle of problem life. It must be near with personal habits. It becomes light with habits practice used.

The third teaching method is memorization method. TGH Bagu calls on Santri to always be awake with memorization. Tuan Guru in kitab Zadul Ma’ad explains that someone who reads the Qur’an will strengthen and sharpen intellect remembering memory and memorization knowledge. The memorization method relates to the method of habituation. The usual reciting surah al-Waqi’ah makes it memorized ayat Surah.
The fourth method is the al-Tikrār method. This method is a repeat method. This method relates to habituation methods. TGH Bagu calls it the term of istiqamah Practice. Every good result is from repetition and earnest.\(^{38}\) This repetition method uses as a reference for success honors. TGH Bagu says about the words of Imam Malik said on Istiqamah that is better than a thousand karomah.\(^{39}\)

The Logic stepwise method is the fifth method. This method is commonly called al-Tadrīj method. al-Tadrīj method is a rational learning method based on the level of Santri for ability.\(^{40}\) al-Tadrīj method in the simplest sense is the method of conformity of reason in accepting knowledge. the meaning of al-Tadrīj is positioned and practiced according to the conditions of the learners in santri environment.\(^{41}\)

**al-Tikrār and al-Tadrīj for Teaching Method in Pesantren**

The methods of al-tikrār and al-tadrīj are novelty of methods in education curriculum that puts forward by TGH Bagu. Both of these learning methods in education are distinctive in Qamarul Huda school foundation for all santri who is inside and outside the school foundation.

The community recites TGH Bagu from various elements. There is no presence for attendance. Tuan Guru memorized the students who attended the recitation. Al-tikrār method is the strength of TGH Bagu in memorizing Santri. Istiqamah process in teaching method that TGH Bagu makes a special one who is Kiai/Ulama and the leader of Mustasar PBNU.44

The method of al-tikrār sees by many santri who is joining wirid and do’a prayers in carrying TGH Bagu. Kitab Zadul Ma‘ad and Wirid Bagu is a compulsory practice of santri. The practice of wirid and Do’a prayer taught by Tuan Guru are evidence of an efficient method of repetition.45

The implementation of al-tikrār method in the settlement is that the Khalidwatiyah Qadiriyah order uses by TGH Bagu for the santri and people. Santri uses to learning from kitab Matan at-Taqrib then proceeds to kitab Fathul Mu‘in. santri begins with kitab Matan al-Ajrumiyah continue to kitab Syarah Dahlan.48

The process of this stage is set to the level of ability and personality of each Santri.\textsuperscript{51} Tuan Guru has requirements point for santri who is taking responsibility of Islamic thought in pesantren. The act practiced al-tadrij by TGH M. Shaleh Hambali bangkel is choosing TGH. M. Yakub as a senior santri.\textsuperscript{52}

Al-tadrij method is a Do’a prayer. The five hopes TGH Bagu for santri who are to be fudhalā’ that is a person who has glory and many advantages in goodness, shulahā’ which is a peacemaker that creates comfort for people and surrounding environment, ulamā’ who have deep knowledge in Islamic Education, ‘Amilin that is the reformer who practices his knowledge as well as being a person who is ready to sacrifice, and nushahā’ who is namely preachers as well as advisors for people.
