

Since the year 2012, Informatics Department Faculty of Science and Technology UIN Sunan Kalijaga has English language journal called IJID (International Journal on Informatics for Development). IJID issues accommodate a variety of issues, the latest from the world of science and technology. One of the requirements of a quality journal if the journal is said to focus on one area of science and sustainability.

We accept scientific literature from the readers. And hopefully these journals can be useful for the development of IT in the world.

IJID is a biannual peer-reviewed journal published in May and December by the Faculty of Science and Technology, State Islamic University (UIN) Sunan Kalijaga Yogyakarta-Indonesia. The journal warmly welcomes contributions of innovative and not-previously-published works in subjects covered by the Journal from scholars of related disciplines.

## Author Guidelines

### General Information

IJID Journal receives scientific manuscripts of research results or study results in the field of computer science, engineering and technology relating to informatics on development. The manuscript should contain information that is true, clear, and has substantive contributions to the field of study.

The writing should be short and clear in accordance with the format of writing IJID [script guidance] The script has not been loaded or is currently in the process of being loaded in other media. Both print and electronic media.

### Submission Preparation Checklist

As part of the submission process, authors are required to check off their submission's compliance with all of the following items, and submissions may be returned to authors that do not adhere to these guidelines.

1. The submission has not been previously published, nor is it before another journal for consideration (or an explanation has been provided in Comments to the Editor).
2. The submission file is in OpenOffice, Microsoft Word, RTF, or WordPerfect document file format.
3. Where available, URLs for the references have been provided.
4. The text is single-spaced; uses a 12-point font; employs italics, rather than underlining (except with URL addresses); and all illustrations, figures, and tables are placed within the text at the appropriate points, rather than at the end.
5. The text adheres to the stylistic and bibliographic requirements outlined in the Author Guidelines, which is found in About the Journal.
6. If submitting to a peer-reviewed section of the journal, the instructions in Ensuring a Blind Review have been followed.
7. Use of a tool such as Zotero, Mendeley, or EndNote for reference management and formatting, and choose IEEE style
8. The author should also submit the copyright agreement. The copyright agreement can be downloaded from the link given at the right corner of this web. This form should be submitted alongside your final version paper.

### Copyright Notice

There is no fast-track review provided.

Article Publication: 0.00 (IDR)

If this paper is accepted for publication, you will not be asked to pay an Article Publication Fee to cover publications costs.

### **Focus and Scope**

IJID accepts submission of manuscripts on

1. Computer science;
2. Engineering and technology relating to informatics on development.

We are promoting an interdisciplinary approach to work on these issues. Apart from the issues given above, the Editorial Board welcomes papers from other areas of computing and informatics.
